

# IMC Law RMS

## Optimize Your Operational Workflow and Crime Fighting Capabilities

### Seamless Integration

- Master Names Index integration with other IMC products
- Dispatch Calls Integrated and Hyperlinked for automatic backfill of Vehicle, Owner, Operator, SSN, and DOB information
- Field Based Reporting client works and looks the same as Desktop client to eliminate the need for retraining
- Can also function stand-alone
- Integrated Crime Maps including Google Map Interface (optional)

### Reports

- Incidents, Arrests, Accidents, Non-Crime Events, Field Interviews, Warrants, Citations, Parking Tickets, Decals, Firearms, Permits & Registrations, Restraining Orders, Bail Orders, and Protective Orders
- Arrests automatically close out associated Incidents and Warrants
- State and Municipal customization for Penal Codes, Municipal Codes, NCIC Codes
- UCR-based summary and NIBRS reporting available at the same time (NIBRS availability by participating states)
- Multiple personnel can enter information into same report at same time
- Narrative editor with full-features including Narrative Templates such as Witness Statement
- Registration Types can be user-defined
- Firearm Registrations
- Trespass Entry and Reporting

### Attachments

- Attachment support for Digital files including suspect interviews, evidence videos, etc.
- Scan and attach Witness Statements

### Forms

- Forms editor uses Microsoft Word to create agency-defined Forms (optional)
- Form Fields automatically backfill from Police Records into Word DOCX fields
- Pre-defined Agency State Forms available on-line

### Accidents

- Accident Diagram for easy Accident Reconstruction
- New 'Crash' Reports supported including electronic State Export in participating states

### Warrants

- Warrants automatically closed upon referenced Arrest

### Case Management

- Pop-up reminder when Personnel have assigned cases

- Case inbox for tracking status of assigned cases
- Manage Case flow (assignment, review, follow-up)
- View Victim and Location information through case management for easy reference

#### **Court Management**

- Court Dates and Times can be scheduled in advance
- Court Appearances emailed through system to Personnel

#### **Analysis**

- Crime, Personnel, Citation & Geographical Analysis available
- Comstat-style reporting
- DDACTS (Data-Driven Approaches to Crime & Safety) reporting
- Graphs and Charts

#### **Property & Evidence**

- Property Management & Evidence Inventory
- Chain-of Custody tracking from storage to test lab to department to court, etc.
- Automatically create and track Property Numbers
- 'Virtual' Property Room with lockers, bins, shelves, safes, cold storage, etc.
- Property Status reports such as Follow-up, Storage and Aging
- Bar Coding (optional)
- Multiple pieces of property can be moved at once
- Track movement of a portion of that piece of property

#### **Imaging**

- Photo arrays and photo lineups
- Mugshots and crime scene photos

#### **Recommended Options**

- IMC CAD
- IMC Mobile
- IMC Detective
- IMC Administrative
- Imaging
- Google Maps Interface
- Field Based Reporting
- Bar Coding - Property & Evidence
